Industrial Design Associates International

IDA is a dynamic and growing international engineering consultancy that specialises in the field of design, due diligence reviews and enhanced testing and commissioning of mechanical and electrical systems. Founded in 2003, we now currently have offices in Hong Kong, Mumbai, Bangalore, Pune, Shanghai, Beijing, Chengdu and Singapore. As part of our expansion plans, we are seeking to recruit talented engineers for Hong Kong Office.

Our customer base consists of many blue-chip organisations that come from the IT, financial, commercial and industrial sectors that operate globally. As demand for our services is increasing across the region, we are seeking high quality personnel to meet the existing and future needs of our exceptionally strong client base.

INTERMEDIATE ELECTRICAL ENGINEERS (Ref: HK-BSE-004)

We have recently secured a number of projects in Hong Kong, Singapore & China and are now seeking to grow our presence in the Asia Pacific region. We are seeking to recruit Intermediate Electrical Engineers with the following skills:

QUALIFICATIONS & EXPERIENCE

- Degree level education in Electrical Engineering or related discipline
- 2-5 years professional experience in consultancy, contracting or from an industry related supplier
- Chartered Engineer (CEng) or equivalent professional registration (preferable but not essential)
- Relevant experience with mission critical facilities such as data centres and banking sector would be a distinct advantage
- Design / Testing & Commissioning Experience is essential
- Very good written and spoken English skills
- Knowledge of Mandarin or Cantonese (preferable but not essential)
- Good people and project management skills with experience in a Client-facing role
- Computer literate and have experience of using industry relevant design software such as CAD, BIM, AMTECH, DIALux etc.
- Some experience of mechanical, BMS and other building services systems would be an advantage

ROLE & RESPONSIBILITIES

- The engineer would have a high degree of autonomy and would therefore need to be highly motivated to achieve the level of quality and work expected of him/her.
- Maintain ownership of key projects from inception to completion
- Maintain Client relationships and develop new leads
- Maintain good technical knowledge of the industry and relevant M&E design and industry standards
- Maintain clear communication with other IDA offices for reporting and sharing of knowledge and experience
- Travel outside of Hong Kong for project work, meetings and internal reporting and training
- Manage project resources (i.e. junior CAD, electrical, mechanical engineers) on projects successfully

If you meet the descriptions as mentioned above we would be pleased to hear from you. Candidates with some but not all of the above requirements will still be considered.

If you are interested in applying for this career enhancing role please submit your CV to: hr@idai.com.hk.

If you have been selected for interview we will be contacting you in the very near future.
