## Industrial Design Associates International

IDA is a dynamic and growing international engineering consultancy that specialises in the field of design, due diligence reviews and enhanced testing and commissioning of mechanical and electrical systems. Founded in 2003, we now have offices in Hong Kong, Mumbai, Bangalore, Pune, Shanghai and Singapore. As part of our expansion plans, we are seeking to recruit talented engineers for our offices in Mumbai, Bangalore, Pune, Hong Kong, Singapore & Shanghai.

Our customer base consists of mainly blue chip organisations that come from the IT, financial, commercial and industrial sectors that operate globally. As demand for our services is increasing across the region, we are seeking high quality personnel to meet the existing and future needs of our exceptionally strong client base

### SENIOR MECHANICAL ENGINEER – MUMBAI

IDA's offices in India have been steadily growing after securing a number of high profile projects in the region. We are now seeking to recruit senior mechanical engineer with following skills.

#### QUALIFICATIONS & EXPERIENCE

- Degree level education in Mechanical Engineering or related discipline
- Minimum of 10 years professional experience in MEP consultancy, contracting or from an industry related supplier
- Professional Mechanical Engineer (PE), registered with PEB, preferable
- Relevant experience with mission critical facilities such as data centres, Commercial fitout would be a distinct advantage.
- Very good written and spoken English skills.
- Good people and project management skills, with experience in a Client-facing role
- Good knowledge & Experience in Mechanical Design & Testing & Commissioning
- Good knowledge & Experience in overall MEP Design & Testing & Commissioning
- Computer literate and have experience of using industry relevant design software such as CAD, BIM, AMTECH, ETAP, DIALux and CFD or energy modelling software
- Experience of other building services systems would be an advantage
- Experience in managing multiple projects would be an advantage.
- Experience in leading project resources would be an advantage.
- Experience in Marketing and Business development would be an advantage.

#### ROLE & RESPONSIBILITIES

- The engineer would have a high degree of autonomy and would therefore need to be highly motivated to achieve the level of quality and work expected of him/her.
- Report directly to the India Director and work to achieve satisfactory conclusions from a highly results-driven organization
- Project manage key large MEP jobs
- Maintain Client relationships and develop new leads
- Maintain good technical knowledge of the industry and relevant M&E design, Testing & Commissioning and industry standards
- Maintain clear communication with other IDA offices for reporting and sharing of knowledge and experience
- Occasional travel outside of Mumbai for project work, meetings and internal reporting and training
- Manage project resources (i.e. junior CAD, electrical, mechanical engineers) on projects successfully.
- Manage Tender process & documentation (Fee Proposal, Presentation etc.) for new project opportunity.
- Manage Client's project expectation and maintain high quality service.
- Support / Advise IDA management on new potential clients.

Therefore, if you meet the descriptions as mentioned we would be pleased to hear from you. We would request that you submit your CV to: [hr@idai.com.hk](mailto:hr@idai.com.hk).

If you have been selected for interview we will be contacting you in the very near future.
